"Brief Coaching PURE"

This is to certify that

Martina Belišová

has participated in our 9-day Brief Coach Training between December 2019 and June 2020. During 64 hours of face to face training she has acquired a deepened knowledge of the solution-focused Brief Coaching approach and its interventions.

The training offered a wide selection of coaching instruments to create simple and effective solutions within a short period of time. It covered elements of a professional coaching practice from coaching agreement to closure in order to enable clients to get where they want utilizing their own resources and solutions.

Within the training Martina Belišová successfully held 10 observed coaching conversations, obtained 7 hours group mentor coaching, carefully reflected upon the usefulness of her behaviour as a coach, discovered key elements of her own apt coaching style and developed her own coaching potential further.
